all too often the poorest readers learn that if they keep quiet during sustained silent reading SSR they're doing okay
no reading required this is especially true in middle school where class sizes are large and instructional emphasis is
on content rather than reading in are they really reading jodi crum marshall discusses how to find out if your

students are using SSR time wisely and what to do about it if they're not. Her book describes how to support middle grade readers who need it the most while embracing a research-proven need to increase independent self-selected reading time for students. Jodi shares lessons and anecdotes from her classroom and from her experience as a reading specialist implementing her model schoolwide. She expands the traditional concepts of SSR to include read-alouds, writing, and accountability to scaffold struggling middle grade students. Bolstered by these additional supports, Jodi's students dramatically increased their interest and ability in reading through a program they named Supporting Student Literacy. SSL. Classroom teachers will appreciate the clear direction on how and why to implement an SSR program. Administrators will appreciate the guidance for establishing a schoolwide literacy block that substantially improves student motivation and learning. Are they really reading? Answers the following important questions: Why should I start an SSR program? How do I build a classroom library? Where do I get funding for books and other materials? How do I prepare the students for SSR? How do I motivate students to read? What is the role of the teacher? How do I assess SSR? If you don't currently use a sustained silent reading program, this book will help you get started on the right track. If you worry that some of your students aren't really reading during SSR or if you want to enhance your program, here is a roadmap that is instructionally sound and flexible enough to fit your students' needs.

In volume IV, the author Evelyn Theresa Watson compares the Revelator's words to scriptural and gospel prophecy, verifying the doctrinal mystery and miracle that lie behind the religious warfare of past and present ages. Her commentary presents the Revelation of St. John the Divine as a treatise on the life and time of Jesus Christ as the messenger of the messianic message unto the seven churches. She attests to the Revelator's seven visions of revealed prophecy which retell the previous two thousand years of unfulfilled scriptural prophecy and foretell one hundred years of fulfilled gospel prophecy. The author correlates these two time periods to the nineteen hundred years of biblical prophecy that followed the beginning of the twenty-first century, marking the end times of the Bible's historical phases of prophetic teaching.
